EDUCATION

Geeta University	Panipat, Haryana
Bachelor of Technology in Computer Science - (8.0)	*Aug. 2022 – Jun 2026*
Inter College Dindyalpur	Siwan, Bihar
12th- (5.7)	*April. 2019 – Feb 2021*

EXPERIENCE

Data Structure and Algorithm June 2024 – August 2024
Coding Blocks *Geeta University, Panipat*
- Solved 200+ DSA problems on LeetCode and CodeChef, improving problem-solving skills and algorithmic thinking
- Developed optimized solutions for competitive programming problems, focusing on time and space complexity
- Worked on real-world DSA applications, including pathfinding algorithms and efficient sorting techniques

Web Designer June 2023 – August 2023
Solitaire Infosys Inc *Mohali, Punjab*
- Designed and developed responsive web pages using HTML, CSS, and JavaScript to enhance user experience
- Collaborated with the development team to create interactive UI components and optimize website performance
- Implemented SEO best practices and accessibility features to improve website visibility and usability
- Worked on WordPress customization, theme modifications, and plugin integration for client projects

PROJECTS

Personal Portfolio Website | React.js, Tailwind CSS, JavaScript, Vite, GitHub Pages
- Designed and developed a fully responsive portfolio website using React.js and Tailwind CSS
- Implemented smooth animations and interactive components for enhanced user experience
- Optimized performance with lazy loading, code splitting, and Vite for fast builds
- Deployed the site using GitHub Pages with focus on SEO optimization for better discoverability

NewsAlexa: Real-time News App | React.js, REST API, NewsAPI
- Built a responsive single-page application using React.js with dynamic routing and modular components
- Integrated external REST API (NewsAPI) for real-time news fetching and display
- Implemented features like search, category filter, and pagination to enhance user experience
- Used Git for version control and followed clean code practices for scalability

TextUtils: Text Analysis Tool | React.js, JavaScript, Bootstrap
- Developed a responsive web app using React.js for text manipulation and analysis
- Added features like word, character, and sentence count, case conversion, and text clearing
- Used React hooks for state management and Bootstrap for modern UI design
- Focused on component reusability, accessibility, and performance optimization

TECHNICAL SKILLS

Languages: Java, C/C++, SQL, JavaScript, HTML/CSS
Backend: Node.js, MongoDB , MySQL REST Api
Frontend: React.js, Next.js , TailwindCSS, ShadCn
Developement Tools: Git, Linux, VS Code, Visual Studio, Eclipse
Libraries: Express, Redux, Tailwind CSS, Bootstrap, Fetch API, Jwt, bcrypt js

ACHIEVEMENTS & AWARDS

- Solved over **300+** data structure and algorithm problems on **LeetCode**, demonstrating strong problem-solving skills.
- Secured **1st position** in the **Error Terror** debugging competition at **Geeta University**, showcasing advanced debugging and logical reasoning skills.
- Achieved **2nd position** in **Street Theater** at the **Cultural Festival** of Geeta University, highlighting teamwork and creative presentation skills.
- Earned **5-star** proficiency in **C++** on **HackerRank**, validating expertise in C++ programming.
